

# Uploading Content to Cloud Storage Services

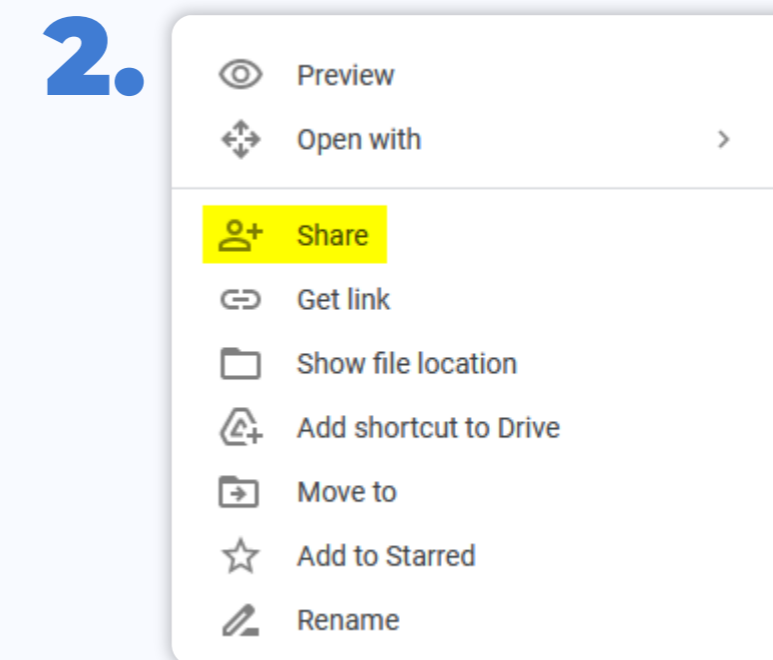

## 1. Upload content

After registering, you can upload content such as pictures, videos, audios, documents, among others. This can be done by clicking “Upload” or simply by dragging and dropping the files.

## 2. Share content

After uploading content to the cloud, you can share it with anyone you wish to.

## 3. Sync content

Some cloud storage services such as Google Drive, Microsoft OneDrive and Dropbox provide file syncing, which will upload the contents of a folder on your computer to the cloud and automatically update it as changes are made to it.
